SUMMARY

- Dedicated and versatile professional with one year of hands-on experience in frontend, backend, and mobile app development. Proven ability to contribute to the entire software development life-cycle from concept to delivery.
- Proficient in a range of programming languages and technologies, ensuring the delivery of high-quality and scalable solutions.
- Committed to staying updated on industry trends and continuously enhancing skills to deliver innovative and efficient software solutions.

SKILLS

Operating Systems: Windows 7/8.1/10/11, MacOS, Android, IOS
Terminal based Skills: Linux, Server Setup and Management, Project Deployment
Technologies: ReactJS, NextJS, NodeJS, Express, MongoDB, VueJS, React Native
General Skills: Bootstrap 5, Typescript, CICD Techniques, GIT, SCSS, Tailwind CSS, Agile Methodologies, Database management, SCRUM.

EXPERIENCE

Junior Frontend Developer   Anand, Gujarat
Codentic Software   *January 2023 – Present*
Projects:

New Version of You

- Spearheaded a successful integration of CometChat overcoming a challenge to enable users to engage in video conferences exclusively with designated healers during appointed times.
- Employed strategic problem-solving and efficient coding practices to swiftly deliver a solution, significantly enhancing the application's functionality and contributing to project success.
- Challenge Faced: Implementing Q&A for the user sign up and recommendation form.
- Leveraged AWS Cloud web services and implementation of AWS in projects.
- https://newversionofyou.com/

Lobi

- Team Lead on the project, actively working on mobile application in React Native.
- Managed the project and excelled a new technology: VueJS to implement complex solutions like ACL management, country wise data fetching and trip booking with payment gateway integration of different countries and their currencies.
- https://play.google.com/store/apps/details?id=com.cresignzone.lobi&hl=en&gl=US&pli=1

Aptitude Test Project

- Leveraged the opportunity to work as MERN Stack Developer to conduct Aptitude Tests for new employees.
- Performed Backend and Frontend side simultaneously using NodeJS (Express), ReactJS (NextJS) and

MongoDB overcoming the challenge of detecting user action including tab switching, exiting full screen and opening a different browser to make sure no cheating is conducted on the test.
- Other Challenge was to filter and randomize questions based on categories and difficulty levels.
- Delivered the project singlehandedly in less than two weeks resulting in growth of the company.

Meeting Host Application
- Managed and delivered mobile app development independently in less than two weeks.
- One of the challenged faced was to meet the deadline while implementing Firebase, Firestore and fetching APIs.
- Acquired and overcame obstacle of designing the data in a way that it is displayed as a slideshow in the website.

Other Projects:
- About 15 projects of developing single page websites with static data. Finished some of the projects in a single day.

Web Developer Intern   Anand, Gujarat
Tech-Elecon Pvt. Ltd   *August 2022*
- Learned MVC using ASP.NET, Entity Framework and built an application which displayed job punch in and out time and work hours for a user and user management panel / admin dashboard to handle user management functionality

EDUCATION

Information and Technology – Bachelor of Engineering   *Sept 2019 – April 2023*
Sardar Patel Engineering College   Anand, Gujarat
Projects:
- **Event Booking and Management (2020):** Using PHP, HTML and CSS to make venue booking for events and making it dynamic so that venues and events can be added through admin panel and would be shown booked if already booked by some customer
- **Sparky (An Obstacle Avoiding Robotic Car):** Using the Raspberry Pi to collect data in fields such as robotics to race cars. Captured and display environmental, motion, attitude, directional, and navigation data. Using MQTT to transfer data to the Node RED dashboard incorporating IOT.

High School   *2017 – 2019*
Shri J.P Thakkar High School   Anand, Gujarat
